

# The Button

## Construction Notes

1. Start with 18' radius circle with cones' bases on the line. (18' in the clear from circle center.
2. Establish 5' wide entry and exit gates
3. Place the center gate cones with 5' in the clear between each. These cones are equal-distanced from the center of the pattern.

Utilize as many circumference cones as desired. As shown should be considered minimum.
